

Introducing Lattco AutoPilot

[Get Started Now >](#)

Do you secretly wish Lattco and Lattco PRO could do 'MORE' to AUTOMate investing and portfolio management based on the Snider Method so you could maximize your monthly income and spend even less time on trade day?

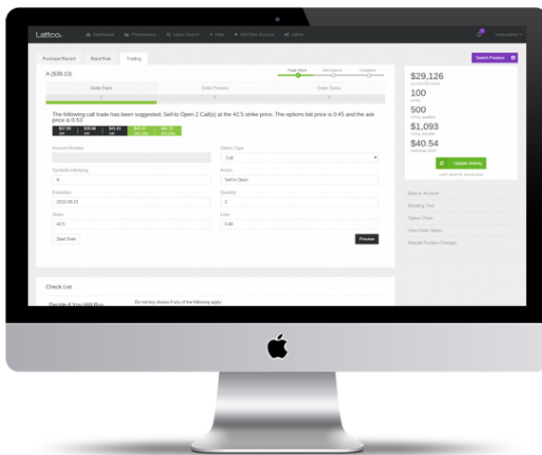

Boost Income

Reduce Time

Eliminate Errors

Remove Stress

Maximize Your Income with A Powerful New Tool

Boost option premiums with our BRAND NEW Limit Order trade order form. Use the tool to reduce the spread between the bid and ask to earn extra income

Limit Order Trade Tickets

The spread between the bid and the ask presents call sellers an opportunity to earn more income by placing a limit order instead of the market orders we historically placed. Our tool automatically generates a limit order form when an option order has the potential for additional income and suggests a modification if the order doesn't execute immediately.

Never Miss a Covered Call Opportunity

One of the most commonly missed trades in the Snider Method is selling a second, or even third, Bundle call order. AutoPilot automatically scours the options chain and your available shares to sell every Bundle available.

Never Skip a Position by Accident

Have you ever been doing your Sunday Evening Bookkeeping and realized you forgot to trade a position? This potentially costs you hundreds or thousands of dollars. A step-by-step trade wizard takes you through EVERY position, and a "Mark Complete" system checks-off each position as you place your trades on Trade Day.

Minimize the Time You Spend Trading Spend More Time Doing What You LOVE

Reduce the time you spend trading your Snider Method accounts by over 50%! Most of our clients get their trades done in just a few hours, but some clients with larger accounts were struggling to get all their accounts traded in one day. Your time is valuable, and we've built a way for your

to enjoy more of it!

Never Type In an Order Again

EVERY trade suggested in a pre-filled order form ready to submit with two simple clicks

Instant Access to Option Chains

One click access to the option chain with no need to type in a symbol or pick an expiration.

No Fumbling Between Multiple Websites

No more back and forth between updating activity, place a trade, reviewing the checklist and scoring option chains. EVERYTHING is one click away all right inside of Lattco AutoPilot

Pre-Filled Symbols and Quantities

Forget the symbol? Not sure how many shares to buy or calls to sell? Every trade suggested EXACTLY according to the rules of the Snider Investment Method.

Automatic Bundling Suggestions

Pulling up option chains, checking strikes and bid prices, and saving Bundles all takes time. Lattco AutoPilot instantly walks you through each Bundle trade.

Simple Trading Wizard

Always know exactly what positions are traded and which ones remain. Our comprehensive trading wizard walks you through EVERY trade for ALL your positions.

No More Costly Errors & Mistakes

We all screw up from time-to-time. One small error can cost a client hundreds or thousands of dollars if not identified and fixed immediately. With Lattco AutoPilot you no longer need to worry about making a costly mistake.

We identified the 6 most common, costly errors in the Snider Method, and built Lattco AutoPilot to ELIMINATE them.

- 1 Always Place Your Trades in the Right Account
- 2 Never Buy To Open an Option
- 3 Always Trade the Correct Quantity of Shares and Contracts
- 4 Never Violate a Band Rule Again
- 5 Never Exceed 10 Times Your Level
- 6 Never Buy After Your First Month Put Assignment

Eliminate Stress

Make Trade Day your FAVORITE day of the month. You should not fear placing an order. Do you struggle with distractions from your boss, co-workers, or kids? Confidently place every trade with seamless implementation of the Snider Investment Method.

Never Fear Placing an Incorrect Order

No more second-guessing yourself or re-reading the Band Rules just to be sure. Receive AutoPilot's trade recommendation and place the order with two simple clicks

Eliminate Distractions

Bosses, co-workers, kids, and family all want a piece of your time. Being pulled in ten different directions makes Trade Day a scramble. AutoPilot streamlines the entire process, removing costly and stressful distractions

Make Trade Day Your Favorite Day of the Month

Complete each Trade Day with confidence and pride you are executing a time-tested, strategic investment approach paving your way for a dream retirement.

Trade Wizard

The step-by-step trading wizard allows you to confidently place every trade with seamless implementation of the Snider Investment Method.

Get Started Today... The Line for Access to AutoPilot Starts Here Give It A "Trade-Day Test-Drive" On Us!

That's right, we want you to try it out at **NO ADDITIONAL COST** on your next **TWO** Trade Days so you can see and feel the difference for yourself!

This means in your first two months you won't be charged a penny more than what you already pay for using Lattco PRO. REMEMBER, you can't get access until you sign up below. JOIN TODAY to get all the benefits of Lattco AutoPilot.

We want to ensure you have our VIP level of support as you settle into the cockpit of your new, fully-loaded investment guidance. We'll do this with a phone call tour of Lattco AutoPilot – where we walk you through all the steps of the ultra-intuitive process.

You're right, it's probably a little over-board due to how intuitive this software is, but that's just a part of our VIP client care!

Plus, you get a **Hassle FREE Upgrade**, which means the on-boarding process is just a few clicks away and we'll hold you by the hand to ensure this step is super-easy.

And, as always, you get the same level of **excellent on-going support** you've experienced for years with your faithful Snider Advisors team.
